

## **Adult & Child Emergency Course Oxygen Administration Course**

(MIN Minimum age 18, 10 with parental consent)

**RM 650/- pax**

**Adult & Child Emergency Course** is cardio-pulmonary resuscitation (CPR), first aid, and automated external defibrillator (AED) use combined into one program. It is designed to teach adults and minors the proper techniques to safely administer CPR, correct first aid, and utilize an AED in emergency situations involving infants, children, and adults.

**Oxygen Administration Course** is intended to teach participants how to administer Oxygen (O<sub>2</sub>) in an emergency.

### **Upon course graduation**

- Recognize and evaluate an emergency and a victim
- Know how to activate or alert the emergency medical services (EMS)
- Be able to provide 1-person infant, child, and adult CPR to a non-breathing or injured person and administer the proper first aid.
- Properly use an automated external defibrillator (AED)

### **Course Materials (inclusive)**

- Adult & Child Emergency Care Manual
- Oxygen Administration Manual
- Certification Card & Wall Certificate for both Courses
